THANK YOU FOR CONSIDERING WANCO  
Driving traffic safety for 25 years.

# Metro™ VMS

## Compact Variable Message Signs

Small footprint, energy efficiency and superior performance.

# Compact message signs designed for metropolitan areas

- Compact trailer fits almost anywhere
- Full-matrix message display in two sizes
- Optional 5-color display
- Touchscreen controller with intuitive interface

The Metro™ Variable Message Signs are our most compact portable message signs, designed for use in metropolitan areas. Metro signs feature a full matrix of high-efficiency LEDs for reduced energy consumption, superior performance and outstanding legibility.

The compact Metro trailer is easy to maneuver and deploy, particularly in urban areas where traffic is heavy and space is limited. The full-matrix display can present messages as text, graphics or a combination of both, for traffic safety, emergency response and special events. Two sizes of displays are available, and color displays are optional.

For optimal positioning, the display cabinet rotates independent of the trailer, and its height is fully adjustable. Metro signs use our touchscreen interface for the easiest programming in the industry.

Optional auxiliary equipment includes radar-based speed detection, the Wanco Traffic Data Classifier System, cellular modem package with GPS and remote control. Additional solar panels and batteries are available if more power is required.

To see or order the Metro VMS, call **800.972.0755** or visit **wanco.com**.

The Metro's compact trailer is easier to maneuver than a full-size sign

Metro signs feature an easy-to-use touchscreen controller

## Brief specifications

	Model WVTMM-L	Model WVTMM-M
Deployed footprint	57 x 73 in. (143 x 185 cm)	57 x 73 in. (143 x 185 cm)

## Message Sign for Law Enforcement

### WVT3-PD

Variable message signs are great for checkpoints, crowd control, and special events. Wanco variable message signs are versatile, easy to use, and highly portable. This model, designed specifically for law enforcement and public safety, displays three lines of text and basic arrow-board functions, provides ease of programming, features a blue-and-white color scheme, and offers many additional options to extend functionality.
